

Introducing a New Book, and a New You

You're absolutely right. Something **must** change in your dating life. You're sick of meeting the same kind of guy over and over again. You're sick of falling into one terrible relationship after the next. More importantly, you want to be **in control** of your love life again! What's with all of these loser men that you've been dating? Are good guys really as hard to find as tampons in a Super Wal-Mart? Is it that?

Or is it that you're always being chosen, rather than doing the choosing?

That's a statement you'll be hearing a lot throughout this book. It's going to be the reason for the drastic change that you're about to undertake. It's the starting block that's also the finishing line. You don't "get it" quite yet, but don't worry. I'm going to be your drill sergeant, drilling this point home until it's as natural as breathing.

By the end of this book, you're going to have taken charge of your dating life in a way that catches your friends by surprise and astonishes the hell out of them. Your old social circle will be staring at you with their eyes bulging and their mouths open and **you're** going to say:

"What? You haven't read *The Social Tigress*?"

Stand Tall and Salute Your Drill Sergeant

My name is Gregg, and I'm the author of a handful of Amazon best sellers in the dating genre for both men and women, including "*Who Holds the Cards Now?*" and "*The Building of a Confident Man*". I fly all over the States, from Las Vegas to Miami to Los Angeles, CA, to teach people my hard-hitting dating techniques.

Yep, I'm a genuine "Hitch" if you will; only I'm not as good looking as Will Smith; nor do I need to be. And one of the first lessons I'll be teaching you is that you don't need to be a Victoria Secret model to find true happiness with a guy, either. Oh, *right, right*, you've **heard** that one before, haven't you? But you don't believe it. At least not yet you don't!

I got my start as a dating coach for middle-aged men a while back, but over the years I've noticed that my audience is a bit wider than I first suspected. My website www.singlemiddleagedguys.com quickly became popular with younger guys (the bastards) and even younger women that were trying to figure out just *what the hell was wrong* with the guys they kept meeting at the bar scene (there's plenty of potential in that bar, you just don't know how to spot it yet. You've got your "blindness" on. And even if you could, you wouldn't know what to do with it. But I'll get to that in a bit!)

I'm a self-made man, a life-long bachelor, and when it comes to speaking to women, a real "natural" in the art. I *live and breathe* women, night and day. I love them, cherish them, and would never abuse their trust. Ladies, I want to give you the dating life that you deserve, but only if you get rid of that "all men suck" and "I'll never understand them" mentality.

Put your trust in me for the duration of this book, and I promise that by the end of it you'll never think these thoughts again.

Soldiering On to Becoming a Dating Master

No drill sergeant would be very good at his job if he didn't yell at you to do a few push-ups every now and again. And that's exactly what I'm going to do. Well, metaphorically, that is.

I'm going to be tough on you. I'm going to challenge you to do things you wouldn't normally do. This book will tell you things that your girlfriends will scream are barefaced lies. But I'll tell you what —every single word in here is the truth, and it's going to enable you to call bullshit on the guys that really do suck. That means no more wasted time; it means the end of looking for men in all the wrong places. Quite possibly, it's the end of heartbreak.

Now, if you're damn sick of it all, you can keep sitting there with mascara running down your face, killing a bucket of Rocky Rhode ice cream with the biggest soup ladle you own...

Or...

You can empower yourself and say "Gregg, I'm **ready** for this. Give it to me straight for the Love of God. I'm sick of pussy-footing around and I'm sick of having my hand held. I want the whole truth and nothing but the truth!"

If that's where you are, then you've come to the right place. If that's not where you are, better look elsewhere for something a little more palatable. My book is a shot of whiskey. If you want the wine coolers then I'd suggest another bartender. I'm serving you up cold, hard truth, straight from the blunt, outside perspective of a man who knows the ins and outs of women better than women do!

I'm going on the assumption that you know I'm about to be blunt with you, and that you're completely willing to agree to that because you're sick of taking advice from other women and you get the sinking suspicion that they aren't being totally honest with you. I'm going to tell you right now:

I have no reason to lie to you!

I want you to succeed. More confident women in this world is better for both women AND men! More confident women mean more stable relationships. It means more families stay together in the long run. Hell, it's a Godsend to your Beautiful Unborn Children. The only people it won't benefit are the divorce lawyers because these tips I'm about to show you are not just for the dating scene. They will create the foundation of a long-lasting, sustainable relationship.

Does that sound too good to be true? Well it isn't! This future is in your hands, but you need to take this book seriously. I'm asking you to take it all in from time to time. Remind yourself that you spent money on this book when you could have bought more mascara and more Rocky Rhode instead.

Why My Book Is Different

Here's some great news: this is the *only* dating eBook that actually makes it feasible for you to take its methods and get them working for you *immediately!* I'm not kidding—this book was designed to get you moving and shaking. After each chapter is a short list of challenges, some of which you can do on the spot, while others may have to wait until certain conditions are met.

Do these and your life will change **forever**.

No joke, no sales pitch. I'm telling you that straight ahead is more confidence, a stronger social life, and more men. By more men I don't just mean you get to play sex goddess Samantha from *Sex & the City* in the next movie sequel. It means having a bigger pool to choose the best guy for you. Just like my dating advice for men isn't for slimy pick up artists, my dating advice for women is strictly for those of you that want to explore, date, and eventually find a guy you can settle down with.

Besides, if you're just in it for the sex, why in the world would you pick up a dating book?

Start Your Training Today!

While in theory you could jump through the chapters in the book, I'm strongly recommending you don't. Each chapter builds on the one before it, and if you attempt the challenges in chapter 7 without having even read the first six chapters, then at best you'll be confused, and at worst you'll make a fool out of yourself at your next outing!

Make this book the last dating book you **ever** buy. That may be bad for my dating book business but if it makes you the confident and beautiful woman that you've always wanted to be, then I will be a happy guy.

With that said, I think we're ready to begin.

Let's make it happen!
